

include/barry/barry.hpp

```
graph BT; A[include/barry/barry.hpp] --> B[include/barry/models/geese-meat-likelihood_exhaust.hpp]; B --> C[include/barry/models/geese.hpp];
```

The diagram illustrates a vertical flow of include dependencies. At the top is a grey box containing 'include/barry/barry.hpp'. A blue arrow points from a middle white box to this top box. The middle box contains 'include/barry/models/geese-meat-likelihood_exhaust.hpp'. Another blue arrow points from a bottom white box to the middle box. The bottom box contains 'include/barry/models/geese.hpp'.

include/barry/models
/geese/geese-meat-likelihood
_exhaust.hpp

include/barry/models
/geese.hpp
